

EXISTING AND PROPOSED FRONT ELEVATION

110 Church Street, Hilperton, Trowbridge, BA14 7RG | Listed Building Consent

Scale 1:50 at A3 (print at 100%)

Existing and proposed elevations are identical in form. The only change is the decorative paint colour of the existing door leaf.  
Door dimension shown is the externally visible painted leaf: 930 mm wide x 1870 mm high. All dimensions are in millimetres.  
No alteration to the door, glazing, ironmongery, opening, stone hood, threshold or masonry. No visible separate frame is included in the work.

|                                                                        |                                     |                                             |

## Existing principal elevation

*Figure 2. Existing garden-facing principal elevation. The currently pale-blue central door is the only element to be redecorated.*  
Photograph supplied by the applicant. No generated or simulated imagery is used in this schedule.

## Existing door and exact work boundary

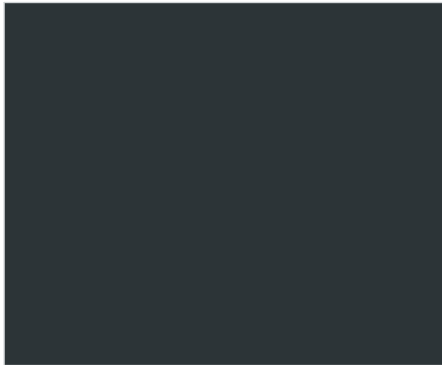

*Figure 3. Existing central C20 glazed door within the chamfered stone opening.*

- Paint boundary: all currently pale-blue timber surfaces forming the hinged door leaf, including its panels, rails, stiles and the painted timber around and between the two glazed openings.
- Excluded: glass, brass knocker, handle, letter plate and other door furniture; house number; threshold; lantern; stone reveals; stone hood and brackets; adjoining masonry.
- No visible separate door frame is proposed in white or any other contrasting colour.

## Proposed material and colour

| Item                  | Specification                                                                                     |
|-----------------------|---------------------------------------------------------------------------------------------------|
| Element               | Existing painted timber front door leaf only                                                      |
| Existing finish       | Pale blue painted finish; manufacturer and colour reference unknown                               |
| Proposed manufacturer | Farrow & Ball                                                                                     |
| Proposed colour       | Hague Blue No. 30                                                                                 |
| Proposed finish       | Exterior Eggshell                                                                                 |
| Preparation           | Light hand preparation and compatible primer/undercoat where required; no aggressive stripping    |
| Unchanged elements    | Door form, glass, ironmongery, stone opening, hood, brackets, threshold and all adjoining masonry |

**Indicative digital swatch**

Farrow & Ball Hague Blue No. 30  
Exterior Eggshell

The manufacturer's named colour and a physical painted sample control.  
Screen and printed reproductions are indicative only.

## Setting and wider view

*Figure 4. Wider view showing the detached house, formal principal elevation and relationship of the central entrance to the adjoining garage and garden.*

The proposed deep blue-green finish is confined to the door leaf and will remain subordinate to the limestone ashlar facade and its architectural composition.
