

Photos from Greengate Road

↓ Red arrow on photo indicates proposed position of the summer house.

↓ Blue arrow on map shows direction of photograph.

Hedgerow to both the side and front of the boundary is 2.5-3m high from neighbouring property / roadside. Visibility of the summer house would be obscured / minimal as it would be below the hedgeline.

Photos in garden to show proposed placement of summer house:

View to the south-east corner of the plot.

The summer house will be placed near the rear boundary, in front of the existing plant border and tree, to the left of the existing pond, surrounded by existing woven fencing to rear which adjoins a paddock, and existing trees and hedge rows to the east side (left of photo).

View angled to south-west direction.

The cedar clad edge of house visible on right of photo; the summer house will be placed on back left of this photo.
