

Photosheet: Glove Factory Studios

NB. the existing café canopy is highlighted

Photo 1: view of existing canopy and external dining area
NB. the tree in foreground partially screens the café in summer views

Photos 2 & 3: wider angle views of existing café in context with the Glove Factory Studios

Photo 4: view of existing pedestrian entrance to the Wild Herb café from the car park

Photo 5 : wider view of existing pedestrian entrance to the Wild Herb café from the car park
NB. the majority of the structure is masked from views to the south by the car park wall enclosure. The proposed new structure and ancillary service buildings will be similarly screened from this viewpoint and will preserve the 'kitchen garden' design intent.

Photo 6 : wider view of existing lake which will receive attenuated surface water runoff from the proposed new café pursuant to the proposed drainage strategy
